KG Message

KG2 students have done an exceptional job in their classes that are being taught on Zoom this year. The students have done an amazing job adapting to their new learning platform and learning from home. With family support, the students have excelled in so many ways this semester.

In literacy, students are reviewing the names of letters, the sounds that each letter makes and they are coming up with words that begin with each letter that we are reviewing each day. They are also learning to recognize, say, spell and write their sight words. They have even started creating their own sentences that include the sight words being taught. KG2 students continue to review letters and the sounds they make by listening to different read aloud stories, watching different videos and singing fun songs about the letters. KG2 students practice letter formation on paper. It is wonderful to see how much they are learning each day in literacy.

In math, students are learning about numbers 0-10, and focusing on how they can represent each number. The students have looked at numbers and have represented them on a five frame, a ten frame, using pictures, using their fingers, and also in written word form and as a numeral. They have reviewed each of the shapes from KG1, and have worked on finding examples of shapes using real world objects that we use or see daily. We are so proud of the hand-on work they are doing at home during our class Go Math activities. It is amazing to watch the students explain what they learned during the lesson.

We are so excited to see the students talking and sharing their thoughts in class. The excitement that we are seeing when they are sharing something, or answering questions in class is so rewarding. It really shows that together, as a team we can accomplish anything. As we always say in KG, teamwork makes the dream work, and we cannot express our appreciation or how grateful we truly are. Parental support in their child's learning is evident and we are so appreciative of the dedication and support. Not only are the students and teachers excited and learning, but we as a team are doing what some thought was impossible. We are all learning TOGETHER online! What an amazing start to a wonderful year at BIS. We can't wait to see what spectacular things are ahead. We invite our school community to celebrate KG2 students and families for their hard work this semester!
