3 December 2020

2020-2021 Issue 15

Grade 1 Message

Grade 1 has excelled in their Zoom E-learning this year. They are persistent in their learning and development of their self-discipline with the support of our grade 1 families.

In Literacy, split into small groups, students can practice the following skills, with guidance from the Journey's grade 1 resources. Students are practicing our vocabulary words to help them think flexibly while reading and during our journal writing. With our CVC spelling words, students are striving to have accurate spelling, sounds, and letters. Students are summarizing the beginning, middle, and end of a story; while also writing stories of their own. Students are learning the sections of a sentence: noun, verb, and adjectives; to make our sentences longer and more interesting. We are starting to practice our research and sorting skills of putting words in alphabetical order.

In math, with the help of games and our GoMath resources, students are learning the following skill: subtraction with manipulatives and pictures, taking apart a number, taking all or none, and comparing to find the difference. Students are also becoming flexible thinkers as we practice the difference between horizontal and vertical subtraction sentences and equations. We are also practicing measuring with standard and non-standard instruments, as well as telling time by the hour and half hour. Students are also practicing math vocabulary to find in their word problems.

In science, we have been learning about our five senses that have ameliorated our use of adjectives in literacy. Now we are jumping into the patterns of the weather around us and how we can measure and observe it.

In Social Studies, we have been learning about the difference between what we need and want, goods and services, producers and consumers, spending and saving, cause and effect, as it relates to the jobs in our community.

In the homeroom, with the help of Ms. Nikhila and Ms. Andrea, we are learning to be respectful and responsible for our choices.

We are persevering through internet challenges and thinking flexibly about going to after school help when it does happen. Friendships are forming in class, during journal sharing time, breaks, and lunch. Students are practicing being patient and respectful, letting others share all the things they love: games, toys, shows, movies, stories, pets, and siblings. We are so grateful to everyone for supporting our students at home and helping.
