Art Teacher Message

Hello Artists!

Our BIS students have an inherent ability for creating art, creative play and imagination. My students in all grade levels have worked hard in this first semester to discover and demonstrate their explorations for our topics of color, lines, shapes and form. Students were able to express their own ideas and apply them to the topic or unit of study. In our second semester so far, students have looked at famous artists and landscapes.

KG 1 through Grade 2 have been working on their fine motor development which has included using pencils, pencil crayons, and more importantly scissors. We have practiced using them safely and appropriately at home to exercise our fine motor muscles.

I have found that art is fundamental, especially during these challenging times, for students to focus on their ideas, and build upon their own experiences. Encouraging student's ability to value themselves and others and to approach an artistic challenge with the desire to understand and create.

All students have worked to create their artwork as independently as possible. My goal as the KG/ES Art Teacher is to empower all students and ignite and inspire their desire to make art, in all forms!
