Principal Message

Report cards are an important communication tool used by the school to identify how your child is progressing regarding his / her acquisition of the curriculum in a specific grade. Report cards are also a great way to continue the important parent / teacher / student conversation regarding the areas where a student needs to focus on and also to celebrate his / her achievements. Teachers invest an enormous amount of time to ensure that the data represented in the report card is accurate and authentic as / per the delivery and assessment of the curriculum. Data in the report card is highlighted with the parent / teacher interviews that bring a more fulsome representation of your child's progress thus far in the academic year. Again: and as always, we encourage and welcome any and all dialogue with parents and hope to see you at the parent / teacher interviews to discuss further the outcomes as noted in the report card.
