2021-2022 Issue 5

Principal Message

Wednesday and Thursday were two truly amazing days. After a year and a half, we were finally able to welcome students back for in-person orientation. I have said before that a school feels empty without students. It was wonderful, even underneath masks, to see students and parents smiling.

On a personal note, thank-you to the families I met during orientation. It was a pleasure to meet you. In addition, families I have yet to meet, I look forward to meeting you. Thank-you in advance to the entire school community for participating in the PCR testing. We all want students to be happy and healthy and this step is part of our commitment to student, staff and parent health and safety.

During our orientation information sessions, I committed to parents to find out what I could about random PCR tests. I have not been able to find out if these will definitely be done or not. The best information I have at this time is that the Nurse will do random temperature checks on students. If and when I find out more information I will be sure to let parents know.

Please ensure that MyMedBot health screening checks are done daily for all your students. This helps us to demonstrate compliance with requirements and regulations.

Happy Learning!
Mr Sven
